SKINCARE
PLAN 1

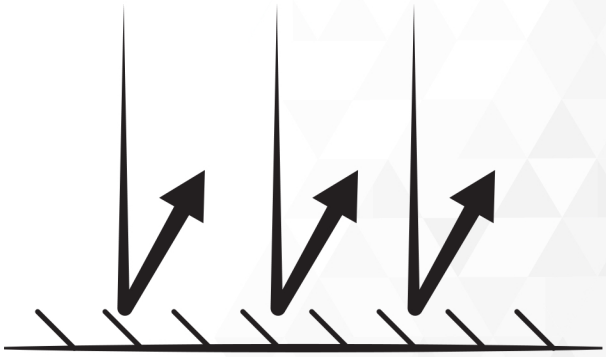

Why do we use a tanning lotion?

Tanning Lotion protects your skin during tanning and provides the best tanning results! Moisturized skin accepts UV light better.

Skin Reaction to UV Light

Moisturized Skin

Dry Skin

Bronzer — Have ingredients that provide immediate and/or delayed bronze color

Accelerators — Accelerate your tan without the use of Bronzers to build your natural color

It is recommended to mix up your routine with an accelerator every few weeks to avoid plateauing.

Tanning Goggles

Podz®
EYEWEAR
"Protecting the Worlds Most Beautiful Eyes"

Quick Facts:

- Failure to wear googles **Increases risk of eye cancer**
- **UV light goes through eyelids,** which offer no real protection at all, and can cause a variety of things that you do not want (photokeratitis,pterygium formation, cataracts, or macular degeneration)

Think of shining a flashlight though your fingertips. If that light can penetrate your fingers, imagine what the stronger UV light does to your eyelids (which have the thinnest skin of the body)

- **Contact lenses and sunglasses do not cover the entire eye,** so they cannot be used instead of googles.
  Think of being in a pool and wearing swimming googles. If the googles are loose, water gets in. Tanning bed googles are the same way, except it is UV light that is trying to get in
- **Towels are not an acceptable alternative,** as they do not block UV light
- **Just one tanning session without eyewear can damage your eyes, making them a leaky, burning mess.**
  Plus, <u>eyelids do not tan!</u>

Tips for Buying a Tanning Lotion

Why do you need a tanning lotion?

Hydration and Tyrosine! UV light needs somewhere to pull moisture from. If the UV light is pulling moisture from your dry skin, this will lead to accelerated aging and your color will not last a long time. Tyrosine is the ingredient that stimulates your melanin activity and accelerates your tan by 60%.

Do you prefer Bronzers or Accelerators?

Bronzers contain instant and delayed color, and accelerators are a blend of moisturizer + tyrosine. Do you prefer building your natural color or getting an instant pop of color and extra delayed color?

Do you have any Tattoos?

Try one of our lotions that have Tattoo and Color Fade Protection! This will help keep your tattoo looking fresh and prevent them from fading.

Hate after tan odor?

Try one of our lotions that have after tan odor eliminators so you will smell like the lotion when you finish your tan, and not like tanning!

Do you use Redlight + Tanning?

Try a lotion that is formulated for the tanning bed plus redlight, or you can always go with our “Collagenetics 2 in 1” which is formulated for optimal redlight absorption!

BENEFITS:

- Encapsulated DHA – A time released ingredient that gradually releases on the skin, providing a sustained and even distribution of color for longer-lasting tanning results.
- Extreme Levels of DHA, Natural & Cosmetic Bronzers – For immediate deep and long lasting bronze color.
- Auto Darkening Complex – A proprietary blend that allows tanning results to develop more rapidly and evenly for desired color perfection.
- Raspberry Ketones – This natural ingredient includes natural Erythrulose, a ketone sugar that interacts with the amino acids in your skin, resulting in a golden brown hue.
- SymBronze® Green – Derived from microalgae, this extract enhances skin complexion and encourages a darker tan, leaving the skin with a flawless airbrushed finish.
- Amino Acid Complex – Contributes to skin health by supporting collagen production, maintaining hydration, and aiding in the repair and renewal of skin cells, while also helping to balance the pH levels in the skin.
- Fision GlowPlex™ – A multi-functional skincare active containing Niacinamide and anti-aging peptides to promote glowing skin, blur imperfections and helping to minimize the appearance of dark spots.
- Copper Peptide™ – A skin restoring peptide that works as an antioxidant, promotes collagen & elastin repair that helps to reduce the appearance of scars and stretch marks.
- Probiotic Blend – A repairing enzyme that helps to soothe and strengthen the skins barrier against environmental aggressors.
- Ingredient Locking Technology – Forms a strong, breathable affect to the skin to allow for deeper penetration and longer lasting results from skincare additives.
- Flavoslim™ - Counteracts the signs of cellulite by improving skin elasticity, while also tightening & toning.
- Forslean™ – A plant derived compound that helps to break down fat deposits.
- Vegan Collagen – Helps to strengthen and condition the skin to visibly improve texture and suppleness while also helping to restore skin's natural bounce and resilience, diminishing the look of fine lines & wrinkles.
- Blue Tansy™ + Color Correctors – Provides anti-orange agents so the skin develops the most natural, dark bronzed result.

- Tattoo & Color Prolonging Agents
- West Coast Watermelon Fragrance

BENEFITS:

- **Juicy After Sun Body Hydrator –** Melts deeply into the skin to enhance the skin's moisture barrier, locking in nourishment while calming and comforting dry, sun-kissed skin.
- **Watermelon Extracts –** The ultimate hydration quencher that floods skin with refreshing moisture while delivering a burst of antioxidants and vitamins for a plump, dewy, and luminous finish.
- **Essential Electrolytes –** Blend of extracts to improve skins moisture barrier and strength, calm redness, protect against environmental dehydration, and work as a vital component in maintaining hydration levels in the skin.
- **Amla Extract –** A powerhouse antioxidant rich in vitamin C that helps brighten, revitalize, and defend against dullness for a more radiant-looking complexion. This superfruit infusion supports smoother, healthier-looking skin while enhancing overall glow and vibrancy.
- **Hyaluronic Acid –** A gentle blend of agents that work to hydrate the skin to promote a bouncy, plump look.
- **Sugarcane Squalane –** Helps to provide weightless hydration, balance excess oil, soothe, and promote a plum, firm appearance to the facial skin.
- **Color Intelligence Technology™ –** helps support your skin's natural tanning cycle by enhancing the look of melanin activation beyond the standard tanning time. As your smart tan memory, Color Intelligence empowers your skin to keep deepening, developing, and enhancing color for a richer, longer-lasting glow.
- **Tattoo & Color Prolonging Technology –** Helps to lock in moisture as well as protect the color and luster of your tan and tattoos.

KEY SELLING STATEMENT:

West Coast Watermelon™ is a glow-boosting juicy skin hydrator that melts into skin with a fresh-squeezed, splashy rush of summer. This dew-drenched infusion wraps the body in lush, water-kissed hydration, leaving skin sunkissed and glossed with a lit from within glow. Watermelon Extract and Coconut Water support moisture retention, while a surge of essential Electrolytes helps maintain optimal hydration levels for a skin-drenching quench that feels beachy, bright, and endlessly sweet. Hyaluronic Acid delivers plump, dewy smoothness, and antioxidant-rich Amla Extract helps ward off dull-looking skin to keep it glowing and golden-hour ready. Enhanced with Skin-Perfecting Peptides and powered by DC's Signature Color Intelligence Technology™, this lush lotion promotes longer-lasting, more luminous-looking color. If you're ready to activate summer skin that's plump, glowing, and nourished, then kick back, relax, and let West Coast Watermelon leave you feeling juicy!
