PLAN 3

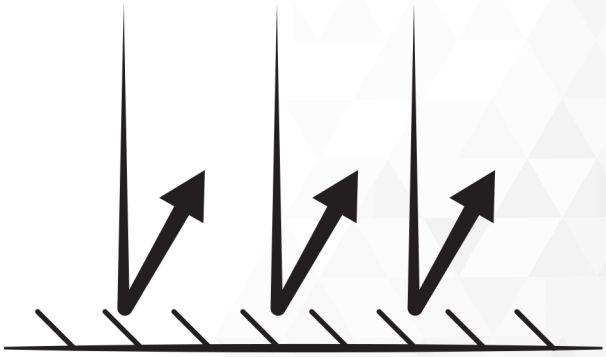

Why do we use a tanning lotion?

Tanning Lotion protects your skin during tanning and provides the best tanning results! Moisturized skin accepts UV light better.

Skin Reaction to UV Light

Moisturized Skin

Dry Skin

Bronzer — Have ingredients that provide immediate and/or delayed bronze color

Accelerators — Accelerate your tan without the use of Bronzers to build your natural color

It is recommended to mix up your routine with an accelerator every few weeks to avoid plateauing.

Tanning Goggles

Podz®
EYEWEAR
"Protecting the Worlds Most Beautiful Eyes"

Quick Facts:

- Failure to wear googles **Increases risk of eye cancer**
- **UV light goes through eyelids,** which offer no real protection at all, and can cause a variety of things that you do not want (photokeratitis,pterygium formation, cataracts, or macular degeneration)

Think of shining a flashlight though your fingertips. If that light can penetrate your fingers, imagine what the stronger UV light does to your eyelids (which have the thinnest skin of the body)

- **Contact lenses and sunglasses do not cover the entire eye,** so they cannot be used instead of googles.
  Think of being in a pool and wearing swimming googles. If the googles are loose, water gets in. Tanning bed googles are the same way, except it is UV light that is trying to get in
- **Towels are not an acceptable alternative,** as they do not block UV light
- **Just one tanning session without eyewear can damage your eyes, making them a leaky, burning mess.**
  Plus, <u>eyelids do not tan!</u>

Tips for Buying a Tanning Lotion

Why do you need a tanning lotion?

Hydration and Tyrosine! UV light needs somewhere to pull moisture from. If the UV light is pulling moisture from your dry skin, this will lead to accelerated aging and your color will not last a long time. Tyrosine is the ingredient that stimulates your melanin activity and accelerates your tan by 60%.

Do you prefer Bronzers or Accelerators?

Bronzers contain instant and delayed color, and accelerators are a blend of moisturizer + tyrosine. Do you prefer building your natural color or getting an instant pop of color and extra delayed color?

Do you have any Tattoos?

Try one of our lotions that have Tattoo and Color Fade Protection! This will help keep your tattoo looking fresh and prevent them from fading.

Hate after tan odor?

Try one of our lotions that have after tan odor eliminators so you will smell like the lotion when you finish your tan, and not like tanning!

Do you use Redlight + Tanning?

Try a lotion that is formulated for the tanning bed plus redlight, or you can always go with our “Collagenetics 2 in 1” which is formulated for optimal redlight absorption!

BENEFITS:

- Blue Hued Color Correcting Super Soft Mega Moisture Light Enhancing Mask – This revolutionary facial tan enhancer is formulated to tan, tone, color correct and tighten facial skin while also preparing the skin for absorption of all light hues.
- Golden C – Contains Vitamin C with micro gold particles that allow the Vitamin C to penetrate deeper into the skin for enhanced complexion perfecting effects while also targeting the appearance of fine lines and pigmentation.
- Superox C™ – A specialty derived blend of Kakadu Plum known as one of the world's richest sources of Vitamin C, Superox C is a potent antioxidant and contains micronutrient benefits that help to protect against environmental damage.
- Hyalufix™ - Sustainably sourced from Thai ginger leaves, Hyalufix™ compliments the skin's natural production of hyaluronic acid. Delivering intensive and deep down cellular hydration, Hyalufix™ significantly appears to correct deep facial wrinkles, improve skin density, firm and plump the skin.
- Apple Cider Vinegar + pH Balancers – Helps to absorb excess oils, unclogs blocked pores and sooth irritation. It also has the power to help restore the natural pH balance to the skin.
- Vegan Collagen – Helps to strengthen and condition the skin to visibly improve texture and suppleness while also helping to restore skin's natural bounce and resilience, diminishing the look of fine lines and wrinkles.
- Plant Based Stem Cells – Helps to promote cell turnover and increase collagen production for a more youthful appearance.
- Hyaluronic Acid – Hydrates through the layers of the skin to promote a bouncy, plump look.
- Multi use – Can be used as a facial tan enhancer, daily facial moisturizer, beauty light enhancer, overnight facial night mask or makeup primer.

KEY SELLING STATEMENT:

This revolutionary all light mega moisture tanning mask works to perfect the skin's surface, plump and hydrate with the use of Plant Based Stem Cells, Hyalufix™, Vegan Collagen and Hyaluronic Acid. Added Golden C and Superox C™ work overtime to fight the appearance of fine lines and wrinkles, while also helping to block the skin from absorbing environmental stress and damage. This Imperfection blurring and pore tightening formula combines Apple Cider Vinegar along with pH Balancers to prepare the skin for optimal all light absorption, making this product a must have for anyone who lusts luminous glow-getting results from any light hue!
